ABOUT THE REVOLUTIONARIES

From Malta's grimy underground venues to the UK's legendary, stages, we, Kodin Hill & The Pressed Pills are here to always take our momentum to a next level.

Our debut show sold out in a flash. (29th March 2025). Since then we headlined shows in Valletta, Liquid club, organized our own underground secret location gig and in August we won a contest out of 30 foreign bands and played in Bayfest, one of the biggest punk festivals in Europe. Now, our next goal is to tour the United Kingdom whilst giving homage to our beloved Malta.

Set to hit the stage on 9th August, the homegrown group will be playing alongside punk legends like Refused and Turbonegro, marking a huge milestone for the band, who only formed earlier this year.
